Rat IgG-heavy and light chain Antibody

Rabbit Polyclonal Conjugate Biotin

Antigen Affinity Purified Catalog No. A110-122B Lot No. A110-122B-3

APPLICATIONS WB, IHC, ICC, ELISA

SPECIES REACTIVITY Rat **ISOTYPE** IaG

AMOUNT 1 ml at 1 mg/ml

2 - 8° C / 1 year from date of receipt STORAGE/SHELF LIFE

PHYSICAL STATE Liquid

Phosphate Buffered Saline (PBS) containing 0.2% BSA and 0.09% Sodium Azide BUFFFR

ORIGIN USA

PRODUCTION The antibody to rat IgG was isolated by affinity chromatography using antigen coupled to

PROCEDURES agarose beads and conjugated to biotin.

Antibody concentration was determined by extinction coefficient: absorbance at 280 nm of 1.4

equals 1.0 mg of IgG.

By immunoelectrophoresis and ELISA this antibody reacts specifically with rat IgG and with light

chains common to other rat immunoglobulins. No antibody was detected against nonimmunoglobulin serum proteins. This antibody may cross react with IgG from other species.

APPLICATIONS Centrifuge tube to remove product from lid. Optimal working dilutions should be determined

1:200 - 1:1.000

experimentally by the investigator. Prepare working dilution immediately before use.

Western Blot 1:20,000 - 1:400,000

Immunohistochemistry 1:500 - 1:5,000 Immunocytochemistry

ELISA 1:20,000 - 1:400,000

APPLICATION NOTES Not all listed applications have been specifically tested by our laboratory.
